

## WEEKLY UPDATE

5/27/20

Dear Residents and Families/Representatives,

Please accept this letter as Moran Nursing & Rehabilitation Center weekly update to keep you informed about the status of COVID in our facility and what our facility is doing to keep our residents and staff safe during the ongoing coronavirus pandemic.

As of today, we have no confirmed cases of COVID-19 in our facility. As mentioned in our previous update, mass testing per the Executive Order was conducted on 5/26 and 5/27/20. 70 residents and 100 staff were tested. The tests kits are being sent to the lab today and we will be awaiting results. Once results are obtained we will be notifying residents, families and staff.

As we have previously reported, we continue to practice the enhanced safety precautions recommended by our federal, state and local health officials. Only essential personnel are allowed inside the facility and we screen them for signs and symptoms of illness prior to entering. Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff are frequently educated on social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We ask them not to report to work if they have symptoms of illness.

We continue to have some issues with our website, but please continue to check [www.morannursingandrehabilitationcenter](http://www.morannursingandrehabilitationcenter) as we look forward to the issues being resolved within the next few days.

As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at 301-359-3000

Sincerely,

*Mary Schriver*
