

WEEKLY UPDATE

6/5/2020

Dear Residents and Families/Representatives,

As we approach summer and Maryland is starting to reopen slowly, we want you to know that the staff at the Moran Nursing and Rehabilitation continues to work hard to prevent spread of COVID-19 in our facility.

As of today, we have no COVID in the facility. Several weeks ago, we did have a resident who was transferred to the hospital for a non-respiratory illness and we tested there. The resident was positive for COVID. This resident did not return to the facility due to his need for a higher level of rehabilitation. I am pleased to report that due to our staff members' diligence with infection control and cleaning, the virus did not spread within the facility. All residents and staff were tested for COVID on 5/26 and 5/27 with 100% negative results.

As a reminder, only essential personnel are allowed inside the facility and we screen them for signs and symptoms of illness prior to entering. Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff is frequently reminded and encouraged to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We ask them not to report to work if they have symptoms of illness.

Please to check our website for updates. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly 301-359-3000.

Sincerely,

Mary Schriver
